SPECIAL NOTES FOR EXHIBITORS

To prevent congestion and inconvenience to other exhibitors and Stewards, any arrangements of exhibits, once staged in the exhibition hall must not be rearranged or worked upon, other than very minor adjustments.

NOTE: NND Not Necessarily Distinct.

Roses must be shown without buds except for floribundas. All buds should be clipped off very close to stem. Stewards would appreciate, where possible, rose specimens be named for public identification only.

FOOTNOTES:

A bud for display purposes is a bud from the time the calyx opens and colour is visible, until the guard or outer petals drop to not more than 450, from then on it becomes a rose.

Specimen Flowers must face judge. This is important.

Specimen Flowers must have own stem and foliage.

All plants and flowers must be grown by Exhibitor with the exception of Floral Art – Novice and Junior.

Exhibitors are requested to carefully note the following rules:

Bowl: A bowl is a vessel that has a diameter equal or greater than the height. The diameter of the mouth is to be not less than two thirds of the total diameter. Anything less is defined a vase.

Vase: Height should be greater than width.

Trough: Must be greater in length than in height or width. Buckets will not be acceptable as suitable containers.

Oasis or floral foam may be used but must be concealed.
